

## **Biological Safety Training Summer 2008 Workshops**

This basic workshop is recommended for students, faculty and staff working in a biological laboratory. It is required for those working with recombinant DNA, and or in a BSL-2 or BSL-3 designated laboratory. The one hour workshop will cover the following biological safety topics:

- ▶ **Biological risk assessment**
- ▶ **Disinfection**
- ▶ **Personal protective equipment (PPE)**
- ▶ **Biological safety cabinets**
- ▶ **Procedures for a biological spill and accidental exposure**
- ▶ **Handling biological waste**

### **Workshop Schedule:**

May 21<sup>st</sup> 10:30-11:30AM Draper Hall 102

June 10<sup>th</sup> 3:00-4:00PM Draper Hall 102

July 23<sup>rd</sup> 11:00-12:00PM Draper Hall 102

August 28<sup>th</sup> 3:00-4:00PM Draper Hall 102

Call Environmental Health & Safety at 545-2682 to register for the biological safety training. If you have any questions or would like to schedule an advanced biological safety training workshop for your laboratory please contact Dr. Maureen O'Leary @ 545-2682 /mcoleary@ehs.umass.edu
